

# Continuous Dynamic

## Premium Support

Keep your business running in production with quick response times, without impacting performance or your bottom line.

### Keep your business up and running with quick response times

Premium Support is designed for enterprise customers that require a more personalized, proactive support relationship. A key goal for this program is to align people, processes, and technology to achieve operational readiness. Premium Support includes accelerated and priority response times, 24x7 escalation for Critical issues, and a designated service associate. The service associate provides remote product support, and works closely with security and development teams in managing support services, vulnerabilities review, and more to ensure rapid problem resolution.

Saving you time and effort, our Premium Support service delivers highly responsive, personalized experience and improves return on your Black Duck® Continuous Dynamic™ investment.

#### Standard support includes

- Access to our secure customer support portal to review knowledge articles and create and view support cases
- The Ask a Question feature to get help from vulnerability team specialists
- Available 12:00 a.m. to 7:00 p.m. PT, Monday through Friday, excluding holidays

#### Premium support includes

- All the features of Standard Support
- Up to 10 hours per week with a service associate as your contact to guide and assist
- Direct access, which enables faster resolution, regular reporting, internal advocacy

For eLearning assistance [email](#)

## Service associate

Your service associate is a highly-skilled security professional who facilitates support requirements and escalates resolution requests to ensure that your issues are resolved quickly. Based on monthly business reviews, the service associate will manage your service requirements, including the review of open vulnerabilities and the management of each case to ensure proper closure. The service associate coordinates support services and collaboration between Continuous Dynamic, your web application business owners, developers, and security teams to ensure the highest level of effective communication.
